ePRINTit™
SECURE CLOUD SOLUTIONS

Secure Cloud Printing Solution for Education

ePRINTit's™ solution for education is a highly secure, cloud-based document management, and printing solution designed and catered specifically for educational institutions. The ePRINTit™ solution comes imbedded within HP and Xerox capable enterprise printers and can manage all other printers in your fleet with any PC using Windows 10 and a touchscreen.

Eliminate the burden of setting up or managing a current print management solution. ePRINTit combines all the worlds best print management and student services in one single SaaS solution. No more print accounts, cash or credit cards to manage, 3rd party software and apps, print servers, or print drivers to manage! The ePRINTit SaaS does It all for you. Students, Guests and faculty members can seamlessly access their funds and print documents on campus from any web-enabled device, file to print driver's for PC, Mac and Chrome Books, or the ePRINTit Mobile Apps.
Start saving on printing costs and generating revenue for your institution, while enhancing the printing experience.

Redefining Modern Education Printing with ePRINTit™

ePRINTit™'s fully hosted, managed solution reduces the strain on IT support, allowing you to focus on students and their education while leaving everything print related to us! ePRINTit™ can take care of everything, including installation and direct student support. The ePRINTit™ solution Is sold as an annual SaaS subscription on a per printer basis.
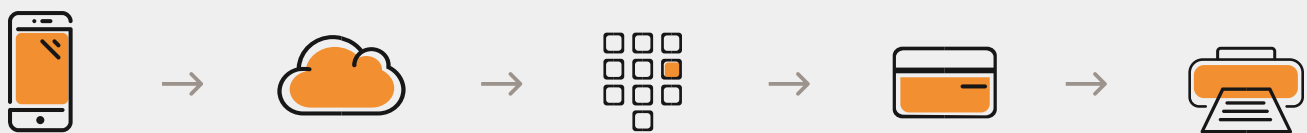

Generate additional revenue: Enable convenience for your faculty and students: Enhance the on-campus printing experience for your staff and students by providing convenient, standalone, 24/7 print access any time of the day or night!

Stop worrying about the transition process: ePRINTit can be implemented on top of existing print infrastructures allowing you to sweat assets and run out existing hardware contracts before implementing a fully end to end managed ePRINTit™ solution.

Take the first step towards a cashless campus: ePRINTit™'s e-commerce and m-commerce solution enables you to eliminate cash vending machines, P-Counters, card top up units and school administered funds management. Streamline transactions for students by allowing them to manage and pay for their print jobs using their existing student cards or prepaid debit/credit cards! And If you still must have cash, ePRINTit supports that as well.

Attract staff, students, and visiting guests: Offer cloud printing on campus and join an elite network of providers who are recognized in ePRINTit™'s directory of Public Print Locations. You don't have to find these mobile customers – they'll find you.

How Does Cloud Printing Work?

1. Access and select documents from any device through email, cloud accounts, personal files, scanning

2. Files are sent and securely stored in their private ePRINTit™ cloud locker

3. Proceed to the geo-located release station and authenticate using campus credentials

4. Funds are deducted from your account or using EMV devices you can add funds

5. Hit Print! Documents are printed within seconds!

ePRINTit mobile app

Students can print from any device, manage their own funds, quota's while connecting the worlds cloud accounts in one workflow.

Designed for today's cloud platforms

Integrates your security and management solutions. LDAP integration provides users with simple and secure access to their print management. Students and faculty can login and authenticate themselves with their existing campus ID and password.

- **ePRINTit™ Web Portal:** Institution-branded e-Portal includes management reporting and a private student portal for print job archiving and cost-tracking. Students and administrators can login and manage their account, upload files, run reports on printing history, and add funds to their account.
- **ePRINTit™ Mobile App:** Access their own private print account secured by their organization active directory and current credit and debit accounts. Built in funds and print management. Manage all your content and view detailed reports of past transactions. Geo-located to your closest available printer.
- **Email:** Students can simply send their print jobs with multiple attachments to designated ePRINTit™ email address, receiving a secure release code by email.
- **USB Drive:** Where enabled, users can access and print their files directly from their USB
- **Scanning and copying has never been easier:** Scan multiple documents at any enabled MFP and they Immediately go to your private cloud account for download anywhere. You can even print a selected range of the scan or print/copy, all at the same time.

Three different mechanisms for print, scan, copy job release

- Embedded printers/MFP's multi-vendor printer fleets
- The branded ePRINTit Kiosk with 23" Touchscreen
- Connect Windows 10 PC Touchscreen to any printer
- Additional payment and top-up devices available

[1] Adds USB printing, full-page preview. Scanning and Copying can be enabled with connected/networked scanner or MFP functionality.
