

THE ePRINTit™ PUBLIC PRINTING SERVICE INSTALLED ON DESKTOP OR TABLET RELEASE STATION

ePRINTit™ is recognized as a global leader for our development of Public Print and Higher Education Solutions. In today's mobile world, ePRINTit™ is revolutionizing the way its customers *live, work and play on-the-go™*. Be a part of the solution and change the way we print in a shared economy, all while leveraging your brand and revenue opportunities.

Turn your printer into a retail-ready device

For locations that want a printer behind the counter (such as hotels or libraries), simply download the Public Printing Interface to a supported printer or to an all-in-one PC attached to any default printer. Enable the solution and provide printing using customer-assigned email addresses or the ePRINTit™ mobile applications.

PC Release stations are available for all MFP's, printer manufacturer's, and scanners for copy function. On screen or POS ecommerce or PCI-DSS compliant payment solutions are available. Virtually any size tablet will operate the software running Windows 10. Software applications available for Higher-Education, account based print managed solutions available in PC release stations as well.

Adaptable for all service areas and businesses

Drive traffic to your door and connect people who need to print with print locations. ePRINTit™ enables a fast, easy and accessible solution with payment capabilities for higher education, K-12, coffee shops, convenience stores, libraries, boardrooms, condo towers, vacation rentals and more.

Service the demand your customers want and need

Perfect solution for semi-attended environments where an associate is available to assist customers who need to print important documents. Customers appreciate the convenience and flexibility of this service. Screens as small as phone to a wide format full size Windows PC touchscreen AiO can be deployed. Install on your existing cash system as a pop-up on your screen (PC versions only).

Generate additional revenue with multiple revenue streams

Leverage the opportunity to develop a new source of awareness and traffic for your locations. In turn, this creates opportunity for further engagement with customers who are already utilizing your services.

Strengthen your brand as a one-stop service hub

Reinforce your brand as an all around one-stop service hub for customers on the go. For additional brand exposure, your logo is branded on the site for geolocation of available printers and email return functions.

Cater to your customers and optimize their experience

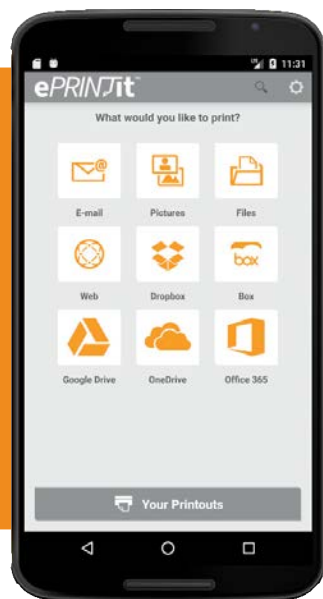

Customers want accessibility at their fingertips and now they have the option to print from all common documents and image types. Access the cloud-based solution through a single email account (for a company or a location), or by using ePRINTit™ Mobile or desktop drivers.

PRODUCT INFORMATION

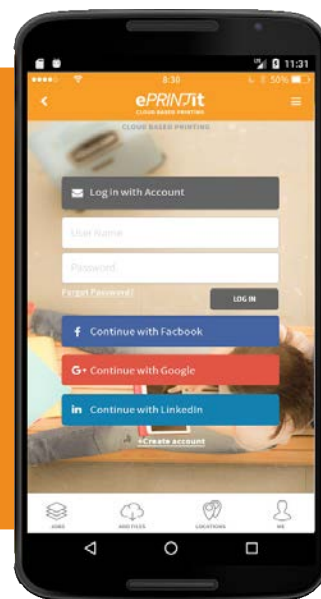

Desktop or Tablet release stations and Cloud-Based Mobile Public Printing Printer service and software (PPL Interface on your desktop or tablet screen) Version 2.02. Software and monthly document processing service. Note: Hardware is not included in pricing. Customers may also use their own devices in PC format (non-touch screen devices are not recommended due to password security entry which must be done by mouse on non touch screen devices).

For those locations that want a printer behind the counter such as hotels or Libraries, enable a Touchscreen Computer with the ePRINTit™ Cloud-Based Mobile Public Printing service SaaS. Any printer can be attached to the system, just enable your default printer when asked. The application itself is hosted and runs on the ePRINTit™ Cloud document processing service. Enablers must register with ePRINTit™ for an activation code and billing services. Cloud-Based Mobile Printing for all common documents and image types are processed into print ready files and are stored for up to 7 days
